

A man in a grey tank top and black shorts is riding a stationary bike in a gym. He has a smartphone mounted on his right arm and is wearing white earbuds. The background is a bright, slightly blurred gym interior with other people visible in the distance.

RELEASE OF
IONITER *LIVE*
JANUARY 2022

NEW AND AWESOME!

FACILITATE REMOTE GROUP SESSIONS

Offer your members to join the exact same class, whether they are at your gym or connect from home!

Their heart rate data will appear on the instructor's leaderboard, so all participants can get guidance & feedback, whether they are present or joining remotely.

Instructor dashboard

IONITER
YOUR TRAINING OPTIMIZED

RECORD AND STREAM **FROM THE GYM**

All the instructor has to do in order to go live, is to setup a laptop with webcam (or connect a separate camera) and record the ongoing class.

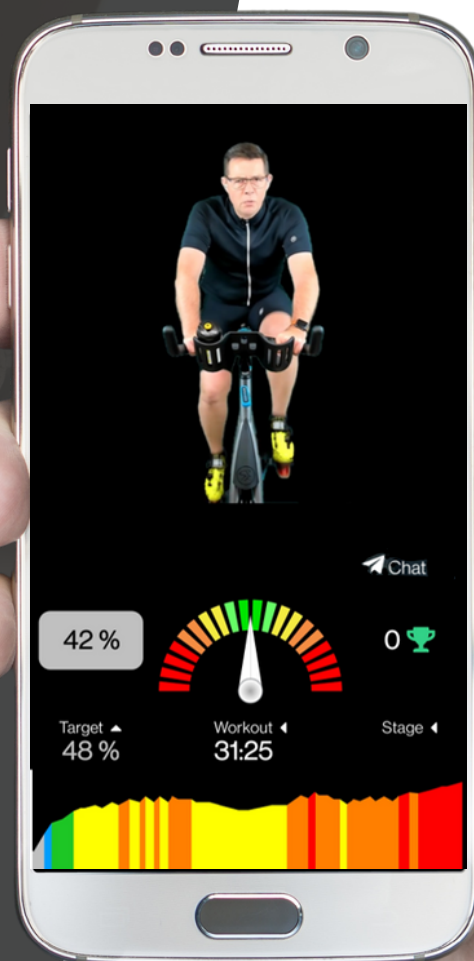

Data from remote and present participants will appear on the screen in STUDIO, exactly as during a regular class, and the instructor can keep track on how everyone is doing in real time.

INSTRUCTED CLASSES **FROM HOME**

Your members will love the increased flexibility to join their favorite class remotely through our app. I.e. if they wish to stay home due to COVID-19 restrictions or safety.

Keep them engaged and motivated through online classes and ensure everyone who wish to participate can join, since there is no upper limit when joining from home.

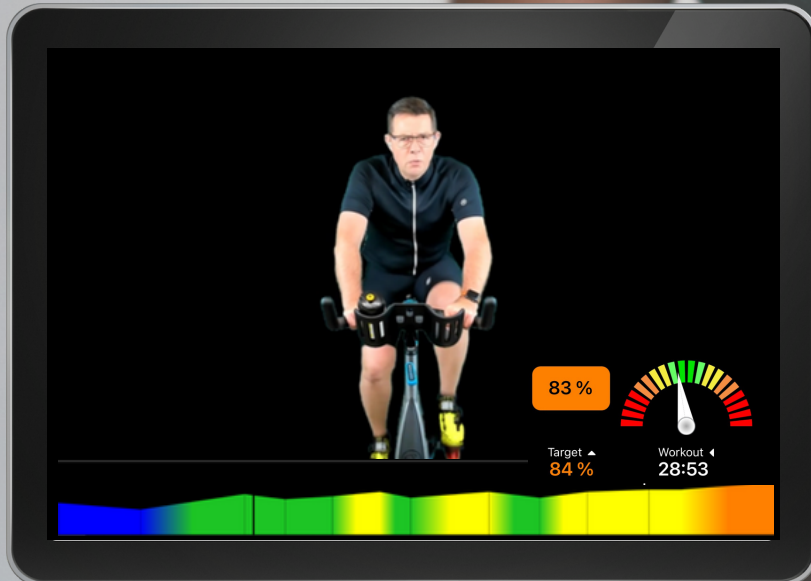

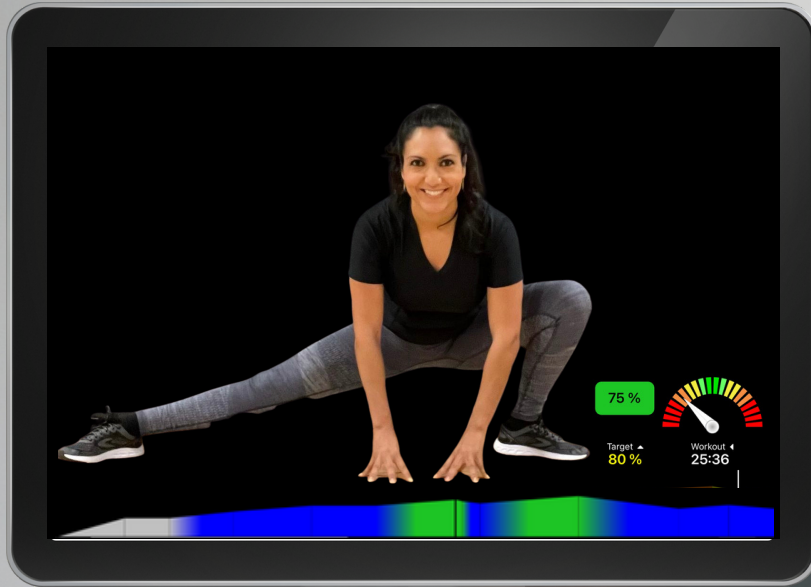

User view in app

ONE SYSTEM IS **ALL YOU NEED**

Did you know that you can use our STUDIO solution for all kinds of cardio based classes at your gym?

Add an extra dimension to your cardio classes by having all participants wear a heart rate belt. Optimize their workout by using heart rate zones, and add a fun and competitive twist to each session, keeping everyone keen and motivated by tracking results and improvements.

NEW **FEATURES**

Mobile App (v2.4.0)

- *Added Live Session option: Remote participation in Group Sessions executed in Studio*
- *Added MeMover workouts*
- *Fixed Video issue related to Video on Demand*
